

Run your business,

KHB WILL LOOK AFTER YOUR BOOKS

IN A MERE FOUR MONTHS KHB BOOKKEEPING HAS GROWN FROM A 'ONE WOMAN BAND' TO A TEAM OF FIVE, AND OWNER KATHERINE HAINES COULD NOT BE HAPPIER. "THE AMOUNT OF GROWTH IS OVERWHELMING, AND I'M SO THANKFUL," KATHERINE SAID. "WE HAVE GONE FROM A HANDFUL OF CLIENTS TO MANAGING THE BOOKS OF 30 BUSINESSES. WE'VE HAD SO MUCH SUPPORT AND MY TEAM ARE FANTASTIC."

Katherine had been juggling several freelance jobs, a full time position at a bank as well as helping husband Andrew set up his business A & K Maintenance & Mechanical. "It got too chaotic so I decided to leave my job and concentrate on growing my business and helping Andrew," she said.

And, she hasn't looked back since. "It has been great and I'm assembling a quality team from highly qualified administrative to degree qualified accountants," she said. "They are all very unique and bring a different thing to the table. Everyone's two cents here counts for two dollars in my eyes."

And KHB Bookkeeping's clients couldn't agree more. Georgia Lofts from Full Boar Enterprises said the team's expert accounting knowledge was a huge asset. "It has helped drive the company forward – all our company accounting goals that were outlined to KHB at the beginning have been achieved and they have exceeded our expectations," she said.

While Pete Brenton from Top End Tools said, "KHB Bookkeeping have been doing my books since October 2013 and I'm over the moon that my BAS and monthly paperwork is completed in a timely manner with little hassle".

Certified Practising Accountant Tom Jelly also highly recommends them, saying, "I recommend KHB to any business wanting to have a bookkeeper who can capably manage their Accounting Records."

Katherine said she was so pleased with the level of support that Territory small businesses have shown as well as established accountants with their referrals. "My team benefits the client because really they have not one, but a

team of five, working for them," she said. "We collaborate and work together well and this only is a positive thing for our clients."

Katherine said they are focusing on helping small businesses and tradespeople. "They are often so overwhelmed trying to run their business, do their work, secure new jobs – and don't have the time or 'know how' to do their book work. That's where we come in," she said. "As I say, spend your day running your business, we'll look after your books."

KHB Bookkeeping's team of registered BAS agents and experienced bookkeepers has the knowledge and energy to keep company's books up-to-date, handle payroll and perform lodgments professionally.

"We get small business owners out of their books and back into their business by reducing the burden of book work," Katherine said. "My team will save you time, money, and unnecessary headaches. When you work with us, you'll rest easy knowing that everything from payroll to lodgments are being handled the right way."
